Summary

Harbury Surgery is located 5.7 miles from Leamington Spa and 7 miles from Warwick.
Harbury Surgery is a General Practice Partnership open to all patients living within our Practice boundary in Harbury and the surrounding areas. Surgery boundary map is available on surgery website. We also accept patients from outside our practice boundary.

We are a General Medical Services (GMS) Practice offering Primary care services for the diagnosis and prevention of disease. We help patients to manage their health and prevent illness. Our GPs assess, diagnose, treat and manage illness. They carry out screening for some diseases and promote general health and wellbeing. Our GPs act as a patient's advocate, supporting and representing a patient's best interests to ensure they receive the best and most appropriate health and/or social care. Our GPs also provide the link to further health services and work closely with other healthcare colleagues. They may also arrange hospital admissions and referrals to other services and specialists and they link with secondary and community services about patient care, taking advice and sharing information where needed. They also collect and record important information from other healthcare professionals involved in the treatment of our patients.

The practice team are committed to delivering the highest standard of medical care and providing a friendly service.

Our Aims and Objectives

1. Provide a high standard of medical care, treatment and support to our patients, their families and carers.
2. Be committed to our patients' needs
3. To focus on prevention of disease by promoting health and wellbeing and offering care and advice to our patients
4. To work in partnership with our patients, their families and carers towards a positive experience and understanding, involving them in decision making about their treatment and care.
5. To encourage our patients to communicate with us by joining our Patient Participation Group, talking to us, participating in surveys, and feeding back and on the services that we offer
6. Have a zero tolerance of all forms of abuse.
7. Act with integrity and complete confidentiality
8. Be courteous, approachable, friendly and accommodating
9. Ensure safe and effective services and environment
10. Improve as a patient centred service through decision making and communication
11. To maintain our motivated and skilled work teams
12. Through monitoring and auditing, continue to improve our healthcare services
13. Maintain high quality care through continuous learning and training
14. To guide our employees in accordance with diversity and equality
15. To ensure effective and robust information governance systems
16. To treat all patients and staff with dignity, respect and honesty.
17. We are committed to ensuring equality, diversity, and inclusion in all aspects of our service delivery, so that everyone feels respected and supported.

Regulated Activities

1. Diagnostic and screening procedures

2. Family planning
3. Maternity and midwifery services
4. Treatment of disease, disorder or injury
5. Surgical Procedures (We currently only perform joint injections – other surgical procedures are not currently undertaken at Harbury Surgery)
